

Herpa's autumn specials 2021

From October 13 to November 5, 2021, Herpa offers a very special highlight for hobbyists, because autumn marks the beginning of the tinkering and conversion season again for many modelers. And after all, you can never have enough add-on parts to tune your own vehicle fleet. That's why our crafting bags are so popular. Although you can't assemble an entire vehicle out of them, they do offer plenty of add-on parts for tinkerers and remodelers. Normally, these crafting bags are only available at trade fairs, at Herpa's big Open Day, or in our museum shop. But for this autumn special, for once they are also available in our online shop. There are also other surprises – so here's an overview of the autumn special:

1. The Premium parts package is available for online ordering during this special-offer period
2. The small parts package can be ordered online during this special-offer period.
3. If your shopping cart contains items with a value of 50,00 euros or more, you will receive a free model
4. The first 1,000 customers who buy a surprise box (large and small) will receive a free credit-card format calendar / mini-calendar. In addition, in one out of every three surprise boxes, there will be one model free of charge.

Only as long as stocks last!

Surprise box large (189446) and small (189439):

As little as 19.95 Euros you get a Herpa Surprise package with a limited truck model in the 1/87 scale. Of course there are no blanks - every package contains a high-quality

Herpa model definitely worth more than the package price of 19.95 Euros. From a novelty to an exclusive model produced in very little quantities - anything could be hidden inside the silver packages with the question mark.

Small parts package (915694)

Various individual model parts for hobbyists and rebuilders. The contents do not make a complete model.
