

9th Faszination Modellbahn Mannheim 8-10 March 2024

Shortly after the toy fair in Nuremberg, we will be going to Faszination Modellbahn Mannheim (Mannheim Fascination of Model Railways) on the Maimarkt grounds **from 8 to 10 March**. Here you will find us in Hall Maimarkt, Booth 1616.

The name "Faszination Modellbahn" says it all - many very detailed model railway installations in all gauges will make the hearts of railway fans and others beat faster. There will be a lot to discover here. Of course, the detailed Herpa vehicles are not to be missed.

And for all collectors there is of course an **exclusive trade fair model (956826)** – just for Mannheim: **The high-roof Mercedes Benz Sprinter** will be elaborately printed on both sides and show an American steam locomotive giant. **The rear printing is set to be something very special this year, as it features the anniversary logo marking Herpa's 75th birthday.** The model will cost 10 euros.
