

Hello again at the Herpa stand

At the “Modell-Hobby-Spiel” in Leipzig, there will be big and small for big and small – racing fever at Herpa’s trade fair stand!

Finally live on site again. For almost two years, we had to keep our distance to the Herpa fans. Although we kept in touch by live chats and via our digital media, the personal contact was unfortunately missing for a long time.

Now, however, we are finally presenting ourselves and our models “face to face” again. From October 1 to 3, 2021, we will be showing our latest releases at the “Modell-Hobby-Spiel” in Leipzig, Germany, and we are looking forward to exchanging ideas with you.

Live there: the BMW M3 from the German Touring Car Championship in the original 1/1 scale. To match the original, there will also be – at absolutely special prices – the models BMW M3 Rennsport “Herpa Motorsport, Gerhard Müller 1989” (**420525**) for only 15 euros instead of 27.95 euros, and the Mercedes-Benz 813 box truck “Herpa Motorsport 1989 / Tauber Motorsport” (**311755**) for 12.95 euros instead of 24.95 euros.

Of course, this year’s limited-edition trade fair model in the popular 1/87 scale is not to be missed either. Based on our original BMW, the trade fair model has also been given a “rally design”. For only 10 euros, you can get this Mercedes-Benz Sprinter 18 box high roof with the imprint “Messe Leipzig 2021” (**941754**) at our stand.

Visiting hall 3 / stand J10 is thus worth it for several reasons.

We are looking forward to meeting you again.
